"Pins and Needles" are caused by the free circulation of the blood being hindered in some way. When the pressure is eased the blood begins to flow again, and the pins disappear. That causes the tingling.

## United States Leads

As World's Great Leader American investors in the last seven years have effectively displaced Great Britain from its standing as the world's greatest leading nation.

The Commerce Department, taking British compilations of that country's foreign investments from 1920 to 1927, inches, has set the total at \$1,121,000,000. Foreign capital issues floated in the United States during the same period had a total value of \$6,380,000,000.

The foreign capital invested in both the United States and Great Britain reached new high levels in 1927. Though the United States is now furnishing more funds for Latin-American, Canada and Europe than in Great Britain, the current total of British investments in Africa and the Far East are still considered as excess of those of the United States in that area.

Strangest Migration This is the season of the return of the caribou to the Canadian tundra grounds. These animals travel in a huge circle below the arctic, visit the next summer grounds over a year after this order was entered, and that the Clerk mail a copy of the order to each of the said residents defendants to the post office address given in the affidavit herein, and file a certificate of the fact in the papers in this case.

"I actually irritated me to have anyone talk to me. I was so nervous, I could not sleep. I feel wonderful now."—Wm. Fahy.

Vital is a compound of iron, phosphorus, and liver, etc. The very first bottle makes you sleep better and have a BIG appetite. Nervous, easily tired people are surprised how delicious CHAS. F. JAMES, Druggist.

There's Real Economy in KURFEEBS

80% to 100% Pure Paint

The heavy lead body of Kurfrees Paint forms a tough, solid film that is proof against extreme hot and cold weather. It hides the discolored surface, and in paint that forms the protecting film and retains the brilliancy of color. Kurfrees Paint contains 30% to 40% more lead per gallon.

Tinted with Pure Colors, ground and mixed with Pure Linseed Oil and Drier—that's all. It's the greater quantity of pure carbonate lead in Kurfrees Paint, scientifically combined with pure linseed oil that makes it flow smoother and more quickly under the brush. It saves time and work in applying, hides and protects more square feet of surface per gallon and lasts longer in the weather. You can paint better and for less with Kurfrees.

Come in and let us show you the beautiful color combinations and how little it will take to paint your house right.
